If you have appeared for GATE during 2014 or 2015 then write the GATE code, then write the marks obtained in the GATE exam and the GATE stream.

WHAT IS VALID GATE SCORE: GATE score are usually valid for two years, for example if you have appeared for GATE in 2014 and your marks are above qualifying marks, you are eligible to apply in 2015 for M.E. courses. But in 2016 your score is considered as invalid.

The next condition is about qualifying marks. Mere getting score does not show that its valid GATE score. Your score is ONLY VALID when it is above or equal to the score of qualifying marks. For example, if you have scored 20 marks and the qualifying marks for that year are mentioned as 25, then your GATE score is NOT VALID. Then you have to appear for PG CET-2015 examination.

Another question may arise, for this year I got 20 marks and qualifying score was 25, if next year qualifying marks decreased to 22, does it make my score valid? The simple answer is NO. The results for the same years will be considered as valid and invalid scores.

Details of Type –A and Type-B.:

- o **Type-A** - Courses offered by VTU, UVCE and UBDTCE Universities.
- o **Type-B** - Courses offered by Department of PG studies and research in Mathematics and Computer Science, Kuvempu University and Department of Studies in Computer Science, Mysore University.

The top sheet will be used for the purpose of marking correct answers and later scanning & evaluation and the bottom sheet will be returned to the candidates after completion of the test. The bottom sheet is coated with a special kind of chemical which acts as Carbon. When the candidate fills the circles on the top sheet, the pressure on the bottom sheet will automatically create a replica of the top sheet.

The candidates are required to COMPULSORILY AFFIX THEIR LEFT HAND THUMB IMPRESSION in the space provided on the bottom portion of the OMR answer sheet (top sheet) with the ink-pad provided by the room Invigilator, after completion of the test. However, they need not affix their thumb impression on the replica (bottom sheet) of the OMR answer sheet. Thereafter, the invigilators will detach the bottom sheet from the top sheet at the perforations and hand over the bottom sheet replica to the candidates and they are allowed to carry the same with them. The top sheet will be retained by the invigilator for returning the same to the Deputy Chief Superintendent of the examination center and in turn to KEA.

NOTE: The OMR answer sheets in respect of all the candidates who have affixed their left hand thumb impression will only be scanned and the results in respect of such candidates will be published. The OMR answer sheets in respect of candidates who have not affixed their left hand thumb impression, for any reason, will not be scanned. Also, the results in respect of such candidates will not be published.

Optical Mark Reader sheets as Answer Sheets

The need for the replica has compelled us to design OMR sheet in such a way that all the information and the answers are marked only on one side. The top portion of the sheet is meant for furnishing the particulars about the candidates such as the Name, PG CET Number, Version code and serial number of the question booklet. The bottom portion is meant for marking the answers, affixing the signature of the room Invigilator & candidates and also for affixing the Left Hand Thumb Impression of the candidate. The space meant for the subject would have been pre-marked. The square blocks in each item should be filled by the candidate in capital letters and numbers. The circles corresponding to the letters or numbers are meant to be completely shaded using blue or black ink ballpoint pen only.

Why Ball Point Pen?

Remember, we are allowing the candidates to carry home a replica or facsimile of the OMR answer sheet and the OMR answer paper comes in a set of two sheets. When you shade the top sheet, the pressure will create a dark mark on the bottom sheet on the corresponding circle. If a pen with a nib is used, the pressure on the top sheet will not be sufficient to activate the chemical on the bottom sheet. On the other hand, a ballpoint pen exerts sufficient pressure to convert the bottom sheet chemical into a dark spot. That is why we want you to use a blue / black ink ballpoint pen only.

Important precautions to be taken while writing / shading Top portion of OMR Answer Sheet

The initial TEN minutes will be given to a candidate, for writing / shading the particulars on the top portion of the OMR answer sheet, wherein the candidates are required to write their Name within the boxes, write their PG CET Number in the boxes and shade the respective circles, write the Question booklet version code in the boxes and shade the respective circle in the required manner. The candidates are also required to write the Question booklet serial number. Of the five items, entries pertaining to 'Name', 'PG CET Number' and 'Question booklet Version code' are very crucial ones. Therefore, candidates are advised to take extra precaution while writing and shading these three items accurately on the top portion of the OMR answer sheet. Important precautions to be taken while shading answers on bottom portion of OMR Answer sheet.

After the initial TEN minutes 120 minutes will be given to a candidate for shading the answers on the bottom portion of the OMR answer sheet. Against each question number, four circles will be provided corresponding to four options of the question paper. The candidates are required to shade only one circle corresponding to the correct answer.

The scanner is so sensitive to black and blue ink shades that even a slight residual ink mark or an unintended ink dot within a circle on the OMR answer sheet will be taken by it, as filled / shaded, at the time of scanning. Consequently, the candidate may lose marks. Therefore, please do not make any stray pen marks on the OMR answer sheets. As the scoring done by the scanner and the computer in tandem is final, a plea for erasing or neglecting the ink mark on a circle cannot be entertained. Therefore, candidates are advised to take extra precaution while shading the circles on the bottom portion.

THINK BEFORE YOU INK!

Once you darken a circle, there is no way to erase or to remove it. That way, your decision about a correct answer will be final. The invigilator will not permit you to use marker, white fluid or any other device to hide the shading already done and you will not be supplied with one more set of OMR sheet. If you spoil a sheet in your attempt to rub off the shading done on a circle, you may ruin your opportunities. If two circles are shaded in a row and even if one of the circles is partially rubbed off, the scanner will take it as a multiple attempt. Therefore, think twice before you shade a circle with ink. Darken only one circle for each question as shown against the CORRECT METHOD.
