	the interest obligation. High-Interest coverage ratio indicates that			
	company can have more of borrowed funds.			
	<b>4. Control in management:</b> Debt generally does not cost dilution of			
	control. To have control, the firm must issue debt. Further issue of			
	equity share may dilute the control of existing equity share holders.			
	<b>5. Return on Investment</b> : It will be beneficial for a firm to raise finance			
	through borrowed funds if the return on investment is higher than			
	the rate of interest on the debt.			
	6. Floatation Cost: These cost include the cost of advertisement,
