Martha was a Mexican girl who was good at her studies. She was a financially poor student studying in a school at Texas. The school had a glorious tradition of giving scholarship jacket to a valedictorian who maintains A+ grade eight years. She was the only the person eligible for the award. The scholarship jacket was the only hope in her life to continue her studies.

As she was a child of poor farmer parents, she could not afford her studies. She was brought up by her grandparents. It was a great relief to her. She was looking for to win the prestigious award. She was happened to hear the heated argument between her two teachers. His math teacher was talking to give the award to another girl Joann, whose father was a member in the school board. He was an influential person too. She could not control her emotions. They were ready to lie or falsify records. Schmitdit did not support that move. She sobbed uncontrollably and went home sadly. She realized that she was discriminated against on account of being a Mexican.

The principal called her to the office and informed her that school management has taken a decision to charge fifteen dollars for the scholarship jacket. She was heartbroken when she knew it. She told the principal that she would tell him after discussing the matter with his grandpa. When she approached her grandpa, he did not listen to her words. He was against giving money to get the scholarship. Martha was deeply hurt by the words of her grandpa. The firm decision of her

grandpa stopped her. It was a severe blow to her ardent desire of getting the prestigious scholarship. She reported the concern of her grandpa to the principal and expressed his unwillingness to pay the amount and stating the reason for refusal.

As she was about to leave the room, principal stopped her suddenly and told her they would make an exception in her case. She is the winner of the scholarship jacket. Martha was overjoyed to hear this pleasant news. She could not believe herself. She wanted to share her happiness with her grandpa and rushed home. She knew that her history teacher was a strong force behind this decision. When she met her, she hugged him and thanked him for his effort to get her scholarship. Her firm belief made her the proud winner of scholarship jacket.

The Managing Director

Texas school

Mexico.

Dear Sir,

I write this letter to express my concern and anguish over the sudden change in policy regarding the scholarship jacket. It is the school's tradition which is carried out every year to award the beautiful gold and green jacket to the class valedictorian, the student who had maintained the highest grades for eight years. As I have a straight A plus average, I deserve the scholarship. I have worked with great conviction and determination to achieve my goal.

Hence I request the management to reconsider the change in the policy and arrive at a favourable decision at the earliest.

Yours faithfully,

Martha

Sd.
