PART-XI
C. Answer any two questions from 42 to 44 .Each carries 4 scores

42 Differences between share and Debenture
1.Ownership.: A share is a part of the owned capital Whereas a debenture is a part of borrowed capital
2.Return: The return on shares is known as dividend While the return on debentures is called interest.
3.Repayment: Normally, the amount of shares is Not returned during the life of the company,

Whereas generally,the debentures are issued for a Specified period and repayable on the expiry of that period.
4.Voting Rights: Shareholders enjoy voting rights Whereas debentureholders do not normally enjoy
any voting right.
43 Limitations of Financial Statements

1. Do not reflect current situation 2. Assets may not realise the stated values
3.Personal bias of accountants 4.No qualitative information
5.They are only interim reports

Comparative Statement of profit and loss of Star Co LTD

Significance of financial statement analysis
(a) Finance manager: Financial analysis focusses on the facts and relationships related to managerial performance, corporate efficiency, financial strengths and weaknesses and creditworthiness of the company
(b) Top management:It is the overall responsibility of Top Management to see that the resources of the firm are used most efficiently and that the firm's financial condition is sound. Financial analysis helps the management for this.
(d)Trade payables:Trade payables are particularly interested in the firm's ability to meet their claims over a very short period of time. Their analysis will, therefore, evaluate the firm's liquidity position.
(e)Lenders: Suppliers of long-term debt are concerned with the firm's long-term solvency and survival. They analyse the firm's profitability over a period of time, its ability to generate cash, to be able to pay interest and repay the principal
