a) BD

b)NQ
c) RP
d) MK
e) FH

Q.7. In a certain code **GEAR** is written as '**5934**' and **RIPE** is written as '**4869**'. How is **PAGE** written inthat code?
a) 6359
b) 6539
c) 4359
d) 6459
e) None of these

Q.8. How many such digits are there in the number **64382179** each of which is as far away from thebeginning of the number as when the digits are arranged in ascending order within the number?
a)None
b)One
c)Two
d) Three
e) More than three

Q.9. Four of the following five are alike in a certainway and so form a group.Which is the one that doesnot belong to that group?
a) 39
b) 91
c) 78
d) 52
e) 45

Q.10. Howmany such pairs of letters are there in the word**ORDINAL** each of which has asmany lettersbetween them in the word as in the English alphabet?
a)None
b)One
c)Two
d) Three
e) More than three

Read the following information carefully and answer the questions which follow:

(ii) 'P ÷ Q' means 'P is sister of Q'.
(iii) 'P - Q' means 'P is mother of Q'.
(iv) 'P + Q' means 'P is father of Q'.

Q.11. Which of the following means 'D is maternal uncle of K'?
a) D ÷ N - K
b) D ÷ N + K
c) D X N - K
d) D X N + K

e) None of these

Q.12. Which of the following means 'M is nephew of R'?
a) MX T+ R
b) R÷J + MX T
c) R ÷J + M
d) R X J + M
e) None of these

Following questions are based on the five three-digit numbers given below:
519 378 436 624 893

Q.13. If the positions of the first and the third digits within each number are interchanged, which of thefollowing will be the second smallest number?
a) 519
b) 378
c) 436
d) 624
e) 893

Q.14. If '1' is subtracted from the first digit in each number and '1' is added to the second digit in eachnumber, which of the following will be the third digit of the second highest number?
a) 9
b) 8
c) 6
d) 4
e) 3

Q.15. If the positions of the first and the second digits within each number are interchanged, which ofthe following will be the highest number?
a) 519
b) 378
c) 436
d) 624
e) 893

Study the following information carefully and answer the questions given below:
M, D, P, K, R, T andW are sitting around a circle facing at the center. D is second to the right ofP who is third to the right of K. T is third to the right of W who is not an immediate neighbour ofD. M is third to the left of R.

Q.16. Who is third to the left of D?
a)W
b) P
c) K
d) Data inadequate
e) None of these

Q.17. Who is to the immediate left of M?
a) K
b)W
c) D
d) T
e) None of these

Q.18. In which of the following pairs is the second person sitting to the immediate right of the firstperson?
a)DT
b) TP
c) PR
d) KW
e) None of these

Q.19. Who is second to the right of T?
a) D
b) K
c) M
d) Data inadequate
e) None of these

Q.20. Who is to the immediate left of R?
a)W
b) P
c) K
d) T
e) None of these

In each of the questions beloware given three statements followed by three conclusions numberedI, II & III. You have to take the given statements to be true even if they seem to be at variance fromcommonly known facts. Read all the conclusions and then decide which of the given conclusionslogically follows from the given statements disregarding commonly known facts.

Q.21. Statements: Some books are papers. Some papers are desks. Some desks are chairs.
Conclusions: I. Some books are desks. **II.** Some papers are chairs.**III.** Some books are chairs.
a) None follows
b) Only I follows
c) Only II follows
d) Only III follows
e) Only I and II follow

Q.22. Statements: All pins are rods. Some rods are chains. All chains are hammers.
Conclusions: I. Some pins are hammers. **II.** Some hammers are rods.**III.** No pin is hammer.
a) Only I follows
b) Only II follows
c). Only III follows
d) Only either I or III and II follow

e) None of these

Q.23. Statements: Some buses are trucks. Some trucks are boats. No boat is jeep.
Conclusions: I. Some jeeps are buses. **II.** Some boats are buses.**III.** Some jeeps are trucks.
a) None follows
b) Only III follows
c) Only I follows
d) Only II follows
e) Only II and III follow

Q.24. Statements: All tables are sofas. All sofas are beds. All beds are mats.
Conclusions: I. Some mats are sofas. **II.** Some beds are tables.**III.** Some mats are tables.
a) Only I and II follow
b) Only II follows
c) Only II and III follow
d) Only I and III follow
e) All follow

Q.25. Statements: Some pots are buckets. All buckets are tubs. All tubs are drums.
Conclusions: I. Some drums are pots. **II.** All tubs are buckets.**III.** Some drums are buckets.
a) Only I and II follow
b) Only I and III follow
c) Only II and III follow
d) All follow
e) None of these

Q.26. Statements: All pins are bags. All chalks are bags. All needles are bags.
Conclusions: I. Some needles are pins. **II.** Some chalks are needles.**III.** No needle is pin.
a) Only I follows
b) Only III follows
c) Only either I or III follows
d) Only either I or III and II follow
e) None of these

Q.27. Statements: All flowers are trees. All trees are jungles. No jungle is hill.
Conclusions: I. No flower is hill. **II.** No tree is hill.**III.** Some jungles are flowers.
a) None follows
b) Only I and II follow
c) Only I and III follow
d) Only II and III follow
e) All follow

Study the following arrangement carefully and answer the questions given below:
R%E5D2#9AFB@J3IKM41WU8V©N*GZ5 67

Q.28. How many such symbols are there in the above arrangement, each of which is immediatelyfollowed by a consonant and immediately preceded by a number?
a)None

b)One
c)Two
d) Three
e) More than three

Q.29. Which of the following is the fifth to the left of the sixteenth from the left end of the abovearrangement?
a) B
b) U
c)W
d) N
e) None of these

Q.30. Which of the following is the seventh to the right of the fourteenth from the right end?
a) B
b) #
c) N
d) U
e) None of these

Q.31. How many such consonants are there in the above arrangement, each of which is immediatelypreceded by a number and immediately followed by a letter?
a)None
b)One
c)Two
d) Three
e) More than three

Q.32. Howmany such vowels are there in the given arrangement, each of which is immediately precededby a number but not immediately followed by a number?
a)None
b)One
c)Two
d) Three
e) Four

Q.33. Four of the following five are alike in a certainwaybased on their positions in the given arrangementso form a group. Which is the one that does not belong to that group?
a) D # E
b) © * 8
c) B J A
d) M I W
e) G 5 N

Q.34. What should come in the place of question mark (?) in the following series based on the givenarrangement?
ED2 9FB 3KM?
a) W8©

b) UV©
c)WUV
d)W8V
e) None of these

Q.35-40. In the following questions, the symbols ©,@,$, % and are used with the following meaning asillustrated below:
'P© Q' means 'P is either greater than or equal to Q'.
"P % Q' means 'P is either smaller than or equal to Q'.
*P@Q means 'P is neither smaller than nor greater than Q'.
'P$ Q' means 'P is smaller than Q'.
'P Q' means 'P is greater than Q'.

Nowin each of the following questions assuming the given statements to be true, find which of thetwo conclusions I and II given below them is/are definitely true?
Give answer a) if only Conclusion I is true.
Give answer b) if only Conclusion II is true.
Give answer c) if either Conclusion I or II is true.
Give answer d) if neither Conclusion I nor II is true.
Give answer e) if both Conclusions I and II are true.

Q.35. Statements:B @ N, N © T, T $ K

Study the following information carefully and answer the given questions:
Aword and number arrangementmachinewhen given an input line ofwords and numbers rearrangesthem following a particular rule in each step. The following is an illustration of input andrearrangement.
Input:basket 83 32 all turn 76 51 now
Step I:turn basket 83 32 all 76 51 now

Step II:turn 32 basket 83 all 76 51 now
Step III:turn 32 now basket 83 all 76 51
Step IV:turn 32 now 51 basket 83 all 76
Step V:turn 32 now 51 basket 76 83 all
Step VI:turn 32 now 51 basket 76 all 83 and **Step VI** is the last step of the rearrangement of the above input.

As per the rules followed in the above steps, find out in each of the following questions the appropriate step for the given input.

Q.42. Input: 49 box store 84 63 on door 37 Which of the following will be Step V of the above input?
a)store 37 on 49 door 63 box 84
b)store 37 on 49 door box 84 63
c)store 37 on 49 box 84 63 door
d) There will be no such step
e) None of these

Q.43. Input: 20 ask never 35 62 84 tall grass
Which of the following steps will be the last but one?
a) V
b) VI
c) IV
d) VII

Q.45. Input: slow wheel 32 57 high lake 12 46
Howmany steps will be required to complete the rearrangement?
a) Five
b) Six
c)Seven
d) Eight
e) None of these

Q.46. Step IV of an input is :**year 14 team 22 63 54 goal house**
Which of the following steps will be the last?
a) IX
b)VIII
c) VII
d) VI
e) None of these

Q.47. Step III of an input is **: yes 15 ultra 96 73 52 home rest**
Howmanymore steps will be required to complete the rearrangement?
a) Three
b) Five
c) Four
d)Two
e) None of these

Q.48. Step II of an input is:**window 14 victory 63 52 24 task for**
Which of the following is definitely the input?
a)victory 63 window 14 52 24 task for
b) 63 victory window 14 52 24 task for
c)victory 63 window 52 14 24 task for
d) Cannot be determined
e) None of these

In each question below is given a group of letters followed by four combinations of digits/symbols
numbers a), b), c) and d). You have to find out which of the combinations correctly represents the group
of letters based on the coding systemandmark the number of that combination as your answer. If none
of the combinations correctly represents the group of letters,marke) i.e. 'None of these as your answer.
LETTER: M A T W R E K I H F U B N P

Below is given a passage followed by several possible inferences which can be drawn from the facts stated in the passage. You have to examine each inference separately in the context of the passage and decide upon its degree of truth or falsity.
Mark answer a) if the inference is 'definitely true', i.e. it properly follows from the statement of facts given.
Mark answer b) if the inference is 'probably true' though not 'definitely true in the light of the facts given.
Mark answer c) if the 'data are inadequate, i.e. from the facts given you cannot say whether the inference is likely to be true or false.
Mark answer d) if the inference is 'probably false', though not 'definitely false' in the light of the facts given.
Mark answer e) if the inference is 'definitely false', i.e. it cannot possibly be drawn from the facts given or it contradicts the given facts.

Domestic steel industry has been going through challenging times with raw material prices rising unabated and government trying to cap final product (steel) prices in order to keep inflation under check. Notably, the government has taken several measures in the past six months to keep a check on steel prices, which contribute around 3.63% of WPI. Now, after holding prices for three months the battle between the government and steel players has erupted again. With the anticipation of players increasing prices very soon, government is trying to counter this with the imposition of a price band on steel products. Imposition of price band may unfairly treat the domestic steel industry as global steel prices are ruling at 30% premium to domestic prices.
Global prices have increased by 50%-60% in 2008 as compared to just 20% rise in the domestic market.

Q.61. In recent past, the increase of steel prices in the international market is much lower than that in the domestic market.

Q.62. Some countries in the western world have fixed a price band for steel products in their domestic markets.

Q.63. There has been a decline in rate of inflation in recent months in India.

Q.64. Govts. move to fix a price band of steel prices may adversely affect the steel manufacturing units in India.

**Q.65.** Prices of steel is an integral part of the Wholesale Price Index (WPI) of India.

Each question below is followed by two statements A and B. You are to determine whether the data given in the statement is sufficient for answering the question. You should use the data and your knowledge of Mathematics to choose between the possible answers.
Give answer a) if the statement A alone is sufficient to answer the question, but the statement B alone is not sufficient.
Give answer b) if the statement B alone is sufficient to answer the question, but the statement A alone is not sufficient.
Give answer c) if both statements A and B together are needed to answer the question.
Give answer d) if either the statement A alone or statement B alone is sufficient to answer the question.
Give answer e) if you cannot get the answer from the statement A and B together, but need evenmore data.

TEST - IV
ENGLISHLANGUAGE

Read the following passage carefully and answer the questions given below it. Certain words have been printed in bold to help you to locate them while answering some of the questions.

We have witnessed several disasters in recent times, some natural others man made. The**frequency** of such calamities has inured us and deadened our collective sensitivity, but that does not reduce the enormity of the personal tragedy of each victim's family and community. The economic loss is only secondary to the human suffering, but is also substantial. The Government whether State or Central has standardized its response. This consists of reacting late, blaming others, visits by VIPs, announcing a relief package including compensation for those affected and then forgetting all about it. There seems to be little attempt at drawing lessons from each disaster, storing the knowledge for future use, long term planning for possible **pre- emptive** action. Preparedness for disasters thus falls short of what is possible using today's technologies.

Floods in many parts of India like the states of Bihar and Assam are a yearly phenomenon. Yetthe government seems to be caught by surprise year after year. It is obvious that tarpaulins, vaccines, medicines, clothes, satellite phones, large numbers of doctors and paramedical staff etc. will be needed as will boats and buses for evacuation. This is known to all those who have combated emergencies yet the non-availability of these essential services and commodities occur. Worse the organizational structure and mechanisms for dealing with disasters are **lethargic** and ill defined. The National Disaster Management Agency, set up a short time ago being a central government agency has limitations relating to **infringing** the jurisdiction of states. It could have aggregated and disseminated experiences and knowledge, stocked many of the essential items required in an emergency or worked with agencies to ensure sufficient stocks, but hasn't.

While the reaction to major disasters is **dismal**, the response to emergencies like accidents isequally sad. Victims lie unattended since passersby are wary of getting caught in a labyrinthine of police and legal systems. The resulting delay in treatment converts injuries into deaths. Of late, a unique and free service to provide assistance in emergency cases is operational. Emergency Management and Research Institute (EMRI) is a professionally managed operation - initiated by the vision and a grant from Ramalinga Raju. The service, which is a successful example of public private partnership is likely to become operational in a few states in the near future. Given the sad failure of conventional government organizations in handling disasters, it is time we looked at the PPP model as an alternative without the government seeking in any way to abdicate its responsibility. While the state provides the funding, private organizations will provide the drive, professionalism, competent management and output linked efficiency of a good corporate organization. Combining the sensitivity and purpose of an NGO with private entrepreneurial drive to handle disasters together is thus a worthwhile challenge for both corporates and the government.

Q.176. Which of the following is NOT true in the context of the passage?
a)Man-made disasters occur more frequently than natural disasters.
b) The Public Private Participation model has been successful in handling emergencies.
c) Floods occur every year in some Indian states.
d) Analysis of previous disasters will help us cope with future ones.
e) People have become indifferent to disasters.

Q.177. Which of the following has been the customary government reaction to disasters?
